✂ Cut up the cards, one set per group of 3-4 learners.

a sea horse

a walrus

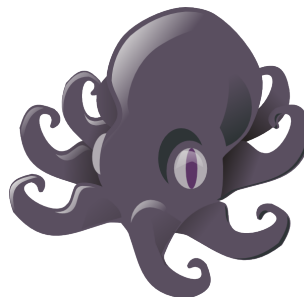

a jellyfish

a squid

a seal

an octopus

## Activity Instructions

Language Focus:	Unspecific
Vocabulary Focus:	Sea animals
Level:	Kids
Skill:	Speaking
Time:	15 minutes
Organisation:	Students play in groups of 3-4
Stage:	Vocabulary speaking practice
Suggested Method:	

1. Copy one set the cards for each group of 3-4 learners.
2. Make a circle with your students and demonstrate the activity with some of the stronger students. Place the cards face down. Instruct the learners to reveal a card and say the word or picture. They then uncover another card. If the pair match, they keep the pair and go again. If the pair do not match, the next person clockwise goes. The winner is the player with the most pairs.
3. Separate the learners into groups, distribute the cards and let them get on with it. Monitor the learners, helping them with any words that pose difficulties. Adjudicate any disputes, should they arise.
4. When the pelmanism games have run their course, end the activity and elicit feedback from the learners.
